**NOTES TO THE INTERIM FINANCIAL REPORT (*Cont'd*)**

**B. EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS (*Cont'd*)**

**B2. Comparison with the Immediate Preceding Quarter's Result (*Cont'd*)**

**Note:**

(1) *Administrative expenses in immediate preceding financial quarter included one-off listing expenses related to the Company's initial public offering ("IPO"). For illustration purposes, the Company adjusted PBT and adjusted PAT are derived by adding back the non-recurring expenses. Listing expenses incurred in current quarter were capitalized against share capital rather than expensed in the Statement of Profit or Loss. Consequently, there is no variance between the reported and adjusted figures for the current financial quarter.*

The Group reported revenue of RM12.6 million for the current financial quarter, an increase of RM3.9 million or 44.8 % from RM8.7 million in the immediate preceding financial quarter. The increase was mainly driven by the growth in digital media publishing segment arising from higher sponsored content engagements.

The Group's GP increased by RM1.8 million or 33.4%, from RM5.3 million to RM7.1 million. The Group's GP margin moderated to 56.4% from 61.2%, primarily due to a higher contribution from campaign management services which has lower margin compared to the Group's core digital media publishing segment.

The Group's adjusted PBT increased to RM5.1 million for the current financial quarter, reflecting an increase of RM1.9 million or 58.3% from RM3.2 million in the immediate preceding financial quarter. This growth in PBT is derived from higher revenue and gross profit and supported by lower administrative expenses which Group's adjusted PBT margin increased from 37.1% to 40.5% due to the lower of prior period sales commission adjustments that were recognized in the immediate preceding quarter.

Correspondingly, the Group's adjusted PAT increased to RM3.8 million for the current financial quarter reflecting an increase of RM1.9 million or 100.6%, from RM1.9 million, in comparison with the immediate preceding financial quarter. The significant increase is in tandem with the increase in adjusted PBT for the cumulative quarter ended 30 November 2025. The Group's adjusted PAT margin increased from 21.7% to 30.0% after accounting for an adjustment arising from the reassessment of the Group's tax provision for FY2025.

**B3. Prospects of the Group**

The Group remains positive on its outlook, supported by the continued strong demand for both its Digital Media Publishing and its Other Marketing Campaigns services.

The digital media advertising industry in Malaysia, especially the social media advertising, has been growing rapidly and is forecasted to grow, supported by the shift in demand from traditional media advertising to digital media advertising and rising digital content consumption. These industry trends provide a supportive environment for the Group's operations.

The Group is progressing with its expansion initiatives, including sourcing suitable locations for its planned livestream facility, strengthening team capacity to support existing and new social media pages and grow its key pillars namely sponsored content, affiliate commerce, campaign management services, key opinion leaders ("**KOL**") marketing and short-film drama production. These efforts are expected to enhance the Group's production capability and support future revenue growth.

In addition, the Group's diversified presence across various social media platforms and its broad portfolio of social media pages provides a resilient foundation to capture digital media advertising demand from a wide range of clients.

Barring any unforeseen circumstances, the Board of Directors of Foodie Media ("**the Board**") expects the Group's prospects for the financial year ending 31 August 2026 to remain positive with growth momentum expected to be sustained throughout the financial year.

The Group's effective tax rate for the current quarter and period-to-date was slightly higher than the statutory tax rate of Malaysia of 24% mainly due to the non-tax-deductible expenses such as depreciation, general provisions for staff costs and operating expenses which are only deductible upon payment.

There are no comparative figures for the preceding corresponding quarter as this is the second interim financial report being announced in compliance with Rule 9.22(2) of the Listing Requirements.
