- (a) Government initiatives to support the tourism industry, notably the launch of the Visit Malaysia Year 2026, aiming for 47 million visitors in 2026. This is expected to drive higher visitor visits to family entertainment centres and increase in footfall to shopping malls;
- (b) Growing number of shopping complexes in Malaysia which contributes to the increase in family entertainment centres as well as toy stores and hobbyist shops;
- (c) Competitive pricing and packages for family entertainment centres;
- (d) Growing popularity of pop toys from rising influence of global pop culture; and
- (e) Malaysia's population growth and rising disposable income.

Premised on the above, the Group is optimistic that its business expansion plans coupled with the industry drivers, will strengthen its market position in both the growing Malaysian theme park and family attraction, and pop toys industries.
